This Helly Hansen Impertech Long Coat is a comfortable rain coat made of knit polyester with a stretch polyurethane coating to flex with you as you move. It features MicroWeld™ seam construction to prevent leaks, and the back cape is ventilated for greater dryness and comfort. The hood tucks into collar when not in use and side zippers allow access to inner garments while hook-and-loop fasteners on the cuffs adjust for a custom fit. The cut also extends to the knees to keep your upper legs dry.
